

ABOUT OUR PRODUCTS

GMtee shirts are the best that money can buy. We make no compromises in quality.

FABRIC

GMtee fabric is specially woven to our specifications. All our shirts are made with this warm, comfortable 100% cotton. The superior quality and weight of our fabric is obvious in the luxurious appearance and long life of our shirts.

The fabric is a densely woven combed cotton interlock with a weight of 240 grams per square metre (gsm). It is pre-shrunk, colourfast and machine-washable. For comparison, most cotton T-shirts are single-knit cotton jersey at only 180 gsm.

FITS AND STYLES

For men we offer two basic fits. Our crew neck shirts are regular box fit T-shirts and our henley collar shirts have a slim, fashionable fit. Both are available in short or long sleeves. In addition we have generously fitting short sleeve polo shirts for men.

Both the Henley collar shirts and polo shirts have contrasting fabric (burgundy with gold dragon print) at the placket and in a half-moon inside the back collar. Neither of these styles has buttons.

Women can choose between our fitted round-neck tees (some with a choice of short or long sleeves) and our longer, straighter V-neck tees with cap sleeves.

PRINTS

GMtee shirts are screen printed with various inks. Many of our prints are very big, covering the whole shirt. These big prints require large and expensive films and screens, resulting in high production costs. Some are printed before being cut and sewn.

Where a print covers a large part of the shirt, we use water-based inks and advanced techniques to ensure that the finished shirt breathes and feels amazingly soft.

Smaller prints may use plastisol inks for strong, bright colours. In addition we offer a few high density prints and discharge prints. A discharge print uses no ink – the print is created by discharging dye from the fabric to leave the natural cotton colour.

INSPIRATION

While our shirts are manufactured to the very highest standards, it's the Asian inspiration that makes a GMtee shirt so unique and meaningful. Luxurious fabric, unique prints, Asian inspiration!
